Subject: Invitation to join the ITU Centre of Excellence network for the 2019-2022 cycle

Dear Mr Ebrahimi,

Thank you for submitting your application to become part of the International Telecommunication Union (ITU) Centre of Excellence (CoE) network in the Asia-Pacific region.

I am pleased to inform you that following a careful evaluation process from a large number of submissions received, the IoT Academy has been selected to become an ITU Centre of Excellence in the priority area of Internet of Things. Your selection as one of ITU CoEs reflects recognition of your status as a high-quality ICT training provider in this area.

Please confirm in writing your acceptance of this invitation. A formal Cooperation Agreement will then be forwarded to you for signing. This agreement will establish a non-exclusive framework of collaboration between your institution and ITU for the development of human and institutional capacity in the above-mentioned area.

In accordance with the "Operational Processes and Procedures document for the Centre of Excellence Network 2018" which will be annexed to the Cooperation Agreement, the work of the CoEs will be guided by the respective Steering Committees. The ITU Regional Office for the Asia-Pacific region will be in touch with you to plan for the training activities to be delivered.

I look forward to working closely with you in the future and to establishing a mutually rewarding collaboration.

Yours sincerely,

Brahma Sanou
Director

TEHRAN
Islamic Republic of Iran

Dear Dr Ebrahimi,

It is my great pleasure to officially welcome IoT Academy to the ITU family as an Academia participant in the work of all three ITU Sectors: Radiocommunication, Telecommunication Standardization and Telecommunication Development.

As the United Nations specialized agency for information and communication technology, ITU brings together 193 Member States and more than 700 Sector Members and Associates from industry, NGOs, international and regional organizations, as well as some 150 academic institutions. In doing so, ITU provides a unique, trusted and global multi-stakeholder platform for partners from the public and private sectors to address major ICT issues.

Our Membership and Partner Relations Division (academia@itu.int) will contact your team to provide additional details regarding opportunities for your institution's participation.

I am certain that you will find great value in being part of ITU, and I look forward to a long and prosperous relationship.

Yours sincerely,

Houlin Zhao
